30th Anniversary*

1 !!!

Additional Monthly Free Cleft
Surgery Occurs at a
collaborative facility
year-round in addition to our
annual Medical Mission!

Did You Know?

8,000 children are born each year in the Philippines with a cleft deformity. Poverty is severe in the areas we serve. Out of pocket cleft surgery costs equal 125 days (4 months) in household wages. UI provides these transformative surgeries at no cost to children in need. Cleft palate and cleft lip surgery improves quality of life physically, emotionally, and socially for these children, giving them the ability to live normal and healthy lives!

UI puts every effort into providing medical care on our missions that is equivalent to care received in the U.S. hospital system, attested to by the expertise and size of our volunteer base. We seek to banish, as much as we can, the ridicule and shame that rural children with cleft deformities experience. While large cities inside and outside of the Philippines are often the focus of medical missions, rural areas, fraught with many challenges are often overlooked.

*Over 750 unique
volunteers
From 19 U.S. States
& 7 Countries
Over the Course
Of Our History*

50

*Volunteers
Per Annual
Mission Trip
On Average*

WE THANK-YOU !!!
