Part X - FIN 48 Footnote

The Foundation adopted the Accounting for Uncertainty in Income Taxes accounting standard which requires the Foundation to determine whether a tax position (and the related tax benefit) is more likely than not to be sustained upon examination by the applicable taxing authority, based solely on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon settlement, presuming that the tax position is examined by the appropriate taxing authority that has full knowledge of all relevant information. During the year ended December 31, 2012, the Foundation's management evaluated its tax positions to determine the existence of uncertainties, and did not note any matters that would require recognition or which may have an affect on its tax-exempt status.
